2010 Stanford Achievement Test Report

(10th Edition of the SAT)

In April of 2010, LCS students in grades 1-8 took the Stanford Achievement Test, 10th Edition. The chart below is a summary of how our students performed. It compares our students' scores to the scores of students from across the nation in public and private schools.

School averages have been provided to give you a basis for evaluating how your child/ren performed in the context of the whole school.

The report uses **Percentile Ranking [PR]** to evaluate student performance. The percentile scale ranges from a low of 1 to a high of 99. A PR score of 81 means that the student scored in the 81st percentile; that score is higher than 80% of other scores in the same category.
